SUR-LOCK CALIBER TRU-FLOW SUR-DRIVE

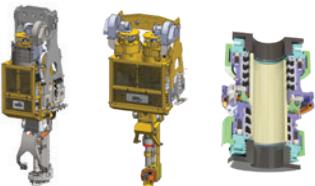

RCD / TRU-FLOW™ MPD SOLUTIONS

Our RCDs are compact and fit-for-purpose with customizable installations for specific rig requirements. All RCDs are dynamically tested before delivery to the rig and are checked bi-weekly by our service team at the wellsite. All of our RCDs are serviceable from the rig floor.

TR SERIES ROUGHNECKS

The Premium TR-110 brings a modular, sleek design to the modern oilfield environment. Built to tackle premium connections with ease, the TR-110 is designed with a small footprint to replace all existing iron roughnecks with minimum to no rig modifications required. The TR-110 is simple to install, competitively priced and has low maintenance cost.

GDM™ TOP DRIVES, SPARE PARTS AND SERVICE

Global Drilling Machine [GDM] top drive systems are performance-focused top drives, available in 150-1000 ton.

Sur-Drive™ Top Drive / Rotary Swivel – 5K / 7.5k washpipe, washpipe packing and complete cartridge assemblies

NV-7500 2" AIRFORCE™ BLEED-OFF GATE VALVE

This mud gate valve provides the user with remote bleed-off capability of standpipe lines translating to a simplified and safer user interface. Unlike conventional mud valves with rubber seats that wash out quickly, the NV-7500 uses single piece seat rings creating an upstream metal to metal seal.

PATRIOT™ AND CALIBER® MUD PUMP EXPENDABLES

Zirconia/chrome sleeve liners, pistons, valves / seats / gaskets for 5K / 7.5K psi mud pump fluid ends

ELECTRONIC PRV

The complexity and expense of the rebuild process on standard PRVs has created a need for more accurate PRV designs. This system delivers the most accurate and reliable protection on the market today, resulting in major cost savings compared to current mechanical valves.

MUD PUMP FLUID AND POWER END PARTS / FLOWLINE EQUIPMENT

5K / 7.5K modules and jewelry that includes threaded rings, and valve covers and valve guides. We offer a wide range of butterfly valves, plug valves and repair kits, and mud valve and repair kits.

PRODUCT LINE OVERVIEW

PATRIOT™

LOGAN
Power Swivel

SUR-LOCK CALIBER TRU-FLOW SUR-DRIVE

POWER SWIVELS

The PS30, PS85, PS120, VTS100 and VTS150 Power Swivels offer smooth performance with shock-free torque, dependability and low maintenance.

SUR-LOCK® QUICK CHANGE MUD PUMP SYSTEMS

Valve cover, rod-link, and liner retention systems are engineered for faster, safer replacement without the use of sledgehammers.

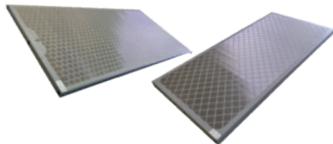

PATRIOT™ PULSATION DAMPENERS AND PARTS

K20 and PD55 style 5K / 7.5K
Major and minor kits, charging hoses and gauges

CALIBER® CENTRIFUGAL PUMPS AND PARTS

Our centrifugal pumps incorporate field proven designs and updated technology to extend service life and reduce downtime during drilling operations.

PATRIOT™ SHAKER SCREENS

Our screens are constructed with a proprietary adhesive compound that results in extended screen life and savings for our clients. Patriot extended life replacement screens are made in the USA at our plant in Oklahoma City.

DRILLING INSTRUMENTATION

Premium offers a comprehensive line of instrumentation equipment—including mud gauges, pressure gauges and torque gauge systems.

HANDLING TOOLS

All of our slips come with safety flex handles and are interchangeable with the OEM equivalent.

- rotary collar slips
- drill collar slips
- casing slips
- safety clamps
- iron roughnecks and tongs
