

X450 PISTON

The Caliber® X450 Piston is designed to perform in the harshest of drilling conditions. It is compatible with all applications and mud types, and will withstand operating temperatures up to 300°F and pressures up to 7500 psi. Superior design and ultra-durable high temperature urethane allow the Caliber X450 to outperform all other extreme condition mud pump pistons on the market.

BENEFITS

- ◆ Proven, reliable performance in every piston
- ◆ Highest temperature tolerance of any piston
- ◆ Resistant to high pressure, abrasion and extrusion
- ◆ Trusted on the largest domestic and international rigs in the world
- ◆ Averages 30%+ longer life than other mud pump pistons
- ◆ Superior lip and cut back hub design reduces wear on liner, dramatically lowering mud pump operating costs
- ◆ Designed to withstand extreme drilling conditions in all applications
- ◆ Performs in all types of drilling mud, allowing the piston to be used at any point in the drilling process

Not suited for clear or sea water uses
