

SUR-PULL VALVE SEAT PULLER

Caliber® Sur-Pull Valve Seat Pullers are engineered to outperform all other valve seat pullers on the market today. They are compatible with all full open seat designs and provide a superior design combined with high strength alloy steel components. Sur-Pull Valve Seat Pullers are engineered for 200 tons to meet the most demanding requirements, with the competitive advantage of compression vs. tension loaded jaw for superior performance.

With fewer parts and simple operation, the Sur-Pull Valve Seat Puller maximizes uptime while reducing total cost of ownership. It extends liner life, greatly reducing cost and downtime associated with mud pump maintenance.

BENEFITS

- ◆ Patent pending design includes simple operation and no pinch points
- ◆ Field tested, proven, reliable performance
- ◆ High strength alloy steel components
- ◆ Fewer parts for increased reliability and reduced cost of ownership
- ◆ Compression loaded jaws for maximum pull capacity
- ◆ High speed ratchet for ease of operation

Part Number	Size
