

XV200E VALVE

Caliber® XV200E valves are a budget friendly alternative for your standard service 5000 and 7500 psi mud systems. Like all Caliber valves, they are forged from a single piece of proprietary, high-strength alloy steel and are case hardened to precisely controlled levels. A standard service urethane seal is molded in place for maximum performance under medium conditions. Each part is individually inspected to ensure 100% performance.

BENEFITS

- ◆ Good in standard service applications up to 220°F
- ◆ Full open design
- ◆ Forged and machined from single piece
- ◆ Bonded insert prevents solids infiltration
- ◆ Good performance in oil based muds
- ◆ Excellent chemical resistance

Part Number	Description
804-62V00-00	API 6
804-72v00-00	API 7
