

The Premium 10K Conversion Kit is a simple solution that uses our field tested VTS-100 10K Washpipe Packing Assembly in place of the existing 5K Logan PS85 / Bowen 2.5 Washpipe Assembly. Our conversion kit is easily installed with a simple adapter ring and utilizes existing industry standard parts to transition to the VTS-100 10K washpipe cartridge system.

## BENEFITS

- ◆ Simple design can be rebuilt in the field.
- ◆ Washpipe, washpipe packing, packing rings, gooseneck and all parts except Bonnet Adapter are the same as VTS100 to reduce inventory costs.
- ◆ Fleets with VTS-100 and Logan PS85 / Bowen 2.5 swivels can now standardize on one washpipe cartridge system.
