

The hydraulic, motor-driven Premium 30-ton power swivel provides smooth, shock-free torque. It is rated to support tensile pipe loads of 30 tons at 50 rpm and 24 tons of dynamic load at 100 rpm. The compact, swivel-head design weighs only 650 lbs. and fits into most drilling or workover masts.

The design incorporates a reliable, custom drive train with hardened steel gears and eliminates the use of dangerous spinning chains, tongs, and kelly spinners in most applications. The power swivel reduces stops and start-ups, improving rig efficiency and reducing wear on the pump, drawworks, and other rig equipment.

FEATURES

- ◆ Smooth, shock-free torque reduces drill string damage
